## Project

Smart Class Notification System Tech Stack: HTML, CSS, JavaScript, Node.js, MySQL  
Developed a centralized notification platform for educational institutions to send real-time updates to students and faculty regarding class cancellations, assignments, exams, marks,

events, and placements. Implemented role-based panels for Admin, Faculty, and Students with features like message filtering and scheduling. Improved academic communication and reduced information delays.

## ACHIEVEMENTS

---

- Certificate in Data Science for Engineers by **IIT Madras**.
- Certificate in Internet of Things(Iot) by **IIT Kharagpur**.
