**Databases:** MYSQL, MongoDB

**Tools:** Git, Github, VS Code

**Certifications:** Cloud Computing (NPTEL), ANTIC Artificial intelligence workshop 2024

## Projects

---

### WeatherNow—Real-Time Weather App :

- Developed WeatherNow, a responsive weather application using React.js and OpenWeatherMap API to display real-time weather data for any location.
- Implemented API integration to fetch and render live temperature, humidity, and weather conditions dynamically based on user search input. .
- Enhanced understanding of frontend API handling by managing asynchronous data fetching, error handling, and responsive UI design for both mobile and desktop users.
